The Garden

The Art of Valerie Jordan

The garden is one of my favourite places to be, a space where I feel most at peace. Surrounded by flowers, colours, and natural rhythms, I find quiet inspiration in the simple beauty that unfolds each day. It's in these moments of stillness, watching petals open to the light or noticing the curve of a stem, that ideas begin to take shape.

This collection is a reflection of that experience. Inspired by the forms, shapes, and colours of flowers in the garden, each artwork captures a moment of connection with nature. Through my creative process, I aim to express the calm, joy, and wonder I feel when immersed in this living, ever-changing landscape.

I hope these pieces invite you to slow down, look closely, and see the beauty that blooms all around us.

Prints from this collection are available for purchase in a variety of sizes and formats. Please inquire for details, each piece is ready to find its home in the spaces and hearts that need it most.
